

## **AUTOMATIC PACKAGING LINE FOR GLASS JARS (PL-GJ)**

Automatic packaging line for liquid and viscous products, made of stainless steel, suitable for glass and plastic jars, of different size and shape. Ideal for the packaging of products such as, sauce, olive paste, ketchup, mayonnaise, mustard, sesame paste, honey, praline, cosmetics, pharmaceutical products. The packaging line consists of a group of the following individual machines, automatic volumetric filling machine for liquids (AVFL) or viscous products (AVFV), automatic cap feeding and capping machine for metallic twist off caps (ACTO) or vacuum capping machine (ACV), and automatic labelling machine for self adhesive labels, which has stepper motor for more accuracy (ALR). As additional equipment, it can be installed, automatic jar blowing system to clean them from dust, foreign bodies, etc., tunnel / oven for heating glass jars and preventing them from breaking during the hot filling process and jar sterilization tunnel with UV lamps.

### **Technical Specifications**

**Voltage: 380V**

**Volumetric filling  
heads: 2 – 12**

**Filling accuracy:  
+-1%**

**Productivity:  
1000-1500  
jars / hour**
