

AUTOMATIC VOLUMETRIC FILLING MACHINE FOR PACKAGING LIQUID PRODUCTS (AVF-L)

Automatic volumetric filling machine for packaging liquid products, made of stainless steel, and has a conveyor belt of 2m. Ideal for food products (seed oil, olive oil, sunflower oil, juice, water, milk, arianni, dressings, sauce, etc.), cosmetics (shower bath, shampoo), medicine, chemicals, pesticides, etc. Easy to operate with PLC touch screen. The adjustment of the INOX volumetric filling heads, is easy and fast operation, and their operation is pneumatic. It is possible to adapt a system of immersing the filling heads into the bottles at the beginning of the filling and raising while filling, in order to avoid creating foam. The machine has an INOX filling tank which supplies the machine, with automatic level control system and the possibility of stirring and heating system. The machine can be integrated to an automatic packaging line.

Technical Specifications

**Volumetric filling
heads: 2-12**

Voltage: 220V, 380V

Filling range:
20-100ml,
30-300ml,
50-500ml,
100-1000ml,
500-2000ml,
700-3000ml,
1000-5000ml

Filling accuracy:
+- 1%

Filling temperature:
5-90° C

Productivity:
800-3000 bottles,
jars/hour
(depends on the number
of the filling heads)

Power: 1kW

Dimensions:
2000*1000*2000mm
