

Automatic monoblock filling capping labelling machine

Automatic monoblock filling and capping packaging machine for miniature glass and plastic bottles/containers.

The machine consists of the following, automatic filling machine, automatic system for cap feeding, automatic cap screwing and automatic labelling machine (optional).

The machine is suitable for round and square bottles/containers of 20ml-250ml. Easy to operate with PLC touch screen. The machine has a control system (no bottle – no fill, no cap – no drop), to avoid soiling the machine. The machine is made of stainless steel.

Depending on the packaging product, the container, and the cap, the machine is suitable for filling glass and plastic bottles/containers with metallic or plastic caps.

Technical Specifications

Voltage: 220V, 380V

Volumetric filling heads:
2

Filling range: 10-60ml,
20-280ml, 50-500ml, 100-
1000ml

Filling accuracy: ≤ 1%

Cap screwing head: 1

Filling temperature: 5-
90° C

Productivity: 1200-1500
bottles/hour (for 4 filling
heads)

Power: 1500W

Dimensions:
2500*1000*1900mm
