

AUTOMATIC AIR-COOLED INDUCTION SEALING MACHINE

Automatic air-cooled sealing machine of continuous flow, suitable for PE, PP, PET, PS containers and also glass containers. Ideal for products such as, food (ketchup, mustard, mayonnaise, kids drinks, milk, cacao, spices, etc.), cosmetics (face / body cremes, etc.), medicine (pills, food supplements, vitamins, etc.), chemicals (pesticides, lubricants etc.). During operation, the principle of electromagnetic induction is used, where a high temperature is produced and thus the melting of the film on the mouth of the package is achieved. This sealing process makes the product more durable and extends its shelf life. Easy and simple operation. The machine can be integrated to an automatic packaging line. It is not ideal for metallic caps.

Technical Specifications

Voltage: 220V

Power: 1,8kW

**Cooling system:
Air cooled**

**Sealing diameter:
Φ20-130mm**

**Container height:
40-400mm**

**Conveyor belt speed:
0-12m/min**

**Productivity:
80-100 containers/min**

**Dimensions:
1550*550*1350mm**

Weight: 100Kgr
