

SEMI AUTOMATIC DESKTOP FILLING MACHINE FOR PACKAGING PRODUCTS IN POWDER FORM (STF-P)

Semi automatic desktop filling machine for packaging products in powder form. It is made of stainless steel. The dosing system works with a servo motor for greater accuracy (stepper motor). It has a monitoring system of dose weighing control with great accuracy. Machine height adjustment. At the hopper there is a side opening. Ability to enter up to 10 codes in memory. Easy to operate with touch screen. Compact construction, ease of maintenance and cleaning of the machine. It is suitable for filling metallic and plastic containers, glass jars, bags. Depending on the requirements of the application, it is possible to change the way of filling, from granular products to powder form products and reverse, just by installing the appropriate component.

Technical Specifications

Voltage: 220V

Filling range:
5-30gr, 20-50gr, 30-100gr,
50-200gr, 100-300gr,
200-500gr (screw change)

Filling accuracy: $\leq 0,3\%$

Productivity:
600-1000 doses/hour

Hopper volume: 20L

Power: 1kW

Dimensions:
650*750*1050mm

Weight: 80Kgr
