

Semi-automatic dose filling machine for liquid products

Semi-automatic dose filling machine for liquid products.

During the filling process, the filling time as well as the motor rotation speed are used to control the dose. The pump is made of corrosion-resistant materials, and is suitable for acidic, alkaline, oil-based products, etc.

Easy to operate and dose adjustment.

The settings are done digitally.

Easy and safe operation.

Ideal for small businesses, workshops, etc.

Technical Specifications

Voltage: 220V

Filling range: 2-4000ml

Filling accuracy: $\leq 1\%$

Productivity: 10-15 doses/min

Dimensions: 350xx260x140mm

Weight: 4,8kg
