

Automatic dose filling machine with rotor pump

Automatic dosing filling machine for packaging semi viscous and viscous products. The machine is made of stainless steel, with a 2 meter conveyor belt. Ideal for food (olive oil, seed oils, olive paste, honey, dressings, etc.), chemicals, cosmetics, etc. It has a lobe pump (Rotor pump) with a Servo motor. Easy to operate with PLC control system touch screen. The advantages of a servo filler are easy dose adjustment, filling speed adjustment. It has a stainless steel feed tank, with an automatic level control system and the ability to stir and heat it.

The machine can be integrated to an automatic packaging line.

Technical Specifications

Voltage: 220V

Filling heads: 1-2

Filling range: 30-5000ml

Air pressure: 0.5-0.6 Mpa

Filling accuracy: $\leq 0.5\%$

Productivity: 5-20 containers/min (depends on the container)

Power: 1000W

Dimensions:
1600*750*1600m

Weight: 280kgr
